NO. 15.

Hard work does not hurt a well woman. It is the weak woman, suffering from diseases peculiar to her sex, who breaks down under the daily strain of household duties. For diseases of the delicate womanly organs Dr. Pierce's Favorite Prescription is the standard remedy. Over half a million women owe health and happiness to Dr. Pierce's treatment.

"No tongue could express the pain that I endured before I commenced taking Dr. Pierce's medicine," writes Mrs. Mollie Colgate, of Raudolph, Charlotte Co., Va. "I was not able to do anything at all. Could not eat anything except bread and tea-or if I did the top of my head hurt so it seemed it would kill me; but now I can eat a little of almost anything I want and can do a good day's work as well as any body can. Am better than I have been for years. I think your medicine is the best that ever was made for its the only thing that ever with the survey of the could be anything that ever was made for its the only thing that ever was made for its the only thing that ever was made for its the control of the could be desired.

EARLY ORATORY IN OLD KENTUCKY. Kentucky Standard.

During the second quarter of the cenof having so many famous orators, who were distinguished lawyers and brilliant statesmen as well, as could Kentucky Great credit is due to the skill and learning of these pioneer leaders at the bar from the fact that the difficulties in the way of acquiring the necessary legal knowledge were very great. There were no public libraries in Kentucky and legal works published anywhere in the United States were few and meager. The attorney was therefore forced to be conversant with legal principles in default of text-books and, instead of referany particular case. Two great centers of legal culture

Among the brilliant galaxy by far the ost pictuesque figure of them all was Hardin, sometimes called "The Kitchen Knife" and 'Old Red Fox," but known Ben Hardin." As at the present time all sharp witticisms and clever stories are traced to Mark Twain and Chann cey M. Depew, so in his day every sarastic retort and good story, especially

if it were a trifile broad, were attributed to Ben Hardin. But his claim to remembrance rests on much more substantial ground than his wit and humor. Hardin was one of he greatest criminal lawyers and shrewdest advocates that ever addressed a jury; a keen politician and statesman with a ready grasp of all public affairs and a broad comprehension of the needs

and effects of legislation. The Hardins were originally French Hugenots and were among those who fled to America after St. Bartholomew's. Ben Hardin was born in Westmoreland ounty, Pennsylvania, February 29,1784.
